Operating systems	Windows, GNU/Linux

- Work effectively as a team member
- Good typing speed to make documents quicker
- Manages a team for an effective product

College Projects and Achievements

- ► **CBIT Commune   - A social networking site**
  - This project provides colleges a seperate social network to its students where data can be stored on their local servers.
  - This project is intended to address privacy concerns related to centralized social networks.

- ► **CBIT Wikipedia   - A wikipedia for colleges**
  - This project provides colleges a wikipedia so that it can contain whole information about college
  - This helps new people (Fresher's) to understand CBIT better, as the content is posted by the local students.

- ► **Learning management system**
  - An online learning system where teachers can upload course materials and test papers and students can actively participate in studies to get better results
  - It was also used in teachers training camp held in cbit

Co-circular activities

- Started a glug named **"Open Minds"** class mates and made street view of college where people can view whole college virtually
- Was an organizer of **"C Star",** a'C' coding contest as a part of **"HEADSTART 2014"**
- Organised a wiki-Edit-a-thon event in college
- Started a **blog** which aims to deliver valuable information to engineering students (www.tutorials4engineers.blogspot.in)

Areas of interests

- Writes review on latest technologies
- Blogging
- Participates in technical seminars
- Human relationships
- Psychology

I here by declare that all the above information is true to the best of my knowledge.
